## CITY AND COUNTY OFFICIAL PAPER

The New York Journal now has a  
larger circulation than any other paper  
ever printed in the United States. It  
leads the New York World by more  
than a hundred thousand.

The "silver craze" is still receiving a  
great deal of attention from the gold  
standard organs. Our gold brethren  
can be relied upon to keep the issue  
alive, though they profess to kill it  
every day.—Albuquerque Democrat.

A prohibition clergyman in New  
Jersey has invented a novel scheme  
for overcoming the demon rum, which  
he declares will work like a charm,  
although it is more than doubtful if it  
will meet the general approbation of  
the taxpayers of that state. He pro-  
poses that every saloonkeeper shall  
receive a pension of \$4,000 from the  
state, on the understanding that he  
will sell no more liquor. Naturally  
the saloonkeepers are enthusiastic  
over the plan and the only difficulty  
would be to figure out how many  
saloonkeepers there would be in New  
Jersey after such a law was passed.  
Probably it would turn out that 99 1/2  
percent of the population would lay  
claim to the pension.

**Two Lives Saved.**  
Mrs. Phoebe Thomas of Junction City  
Ill., was told by her doctors she had con-  
sumption and that there was no hope for  
her, but two bottles of Dr. King's New  
Discovery cured her, and she says it  
saved her life. Mr. Thos. Eggers, 139  
Florida St., San Francisco, suffered from  
a dreadful cold, approaching consump-  
tion, tried without result everything else  
then bought one bottle of Dr. King's  
New Discovery and in two weeks was  
cured. He is naturally thankful. It is  
such results, of which there are samples  
that prove the wonderful efficacy of  
the medicine in coughs and colds. Free  
trial bottles at Tombstone and Bisbee  
drug stores. Regular size 50c and \$1.00

## The National Matte Smelter.

A practical and simple method of matte  
smelting ores, such as nickel, copper, gold and  
silver ores. In localities where lead ores and  
fuels are scarce and almost unobtainable, our  
pyritic, water jacket Matte Smelter has been re-  
cognized with highly satisfactory results, and  
has been thoroughly tested on various pyritic,  
sulphide and arsenide ores, in capacity of 2 to  
80 tons per day. It is the most practical,  
cheapest and simplest method of gold and silver  
ore matting and concentrating that is known  
today.

It requires no extraordinary skill, no lead ore,  
no fluxing material, and no fuel of any kind for  
the smelter after it is started. The sulphur in  
the ore is its natural fuel only, and its cost has  
no comparison with any other process of con-  
centrating.

We are prepared to furnish any size or capac-  
ity plant complete to substantial mining people,  
set it up and furnish our men to run it for them  
on easy payments. Price and specifications  
furnished with references and testimonials on  
application.
